

# Cobra®

## DUAL DASH CAM SYSTEM

### Dual Camera System

Simultaneously captures the road ahead and behind in HD video (Front: 1080P FHD, Rear: 720P HD).

### Flexible Configuration

Allows mounting the rear camera on the front windshield facing in or use the 20 ft. extender cable to mount the rear cam on the rear windshield facing out to record the road behind you.

### Split Screen Viewing

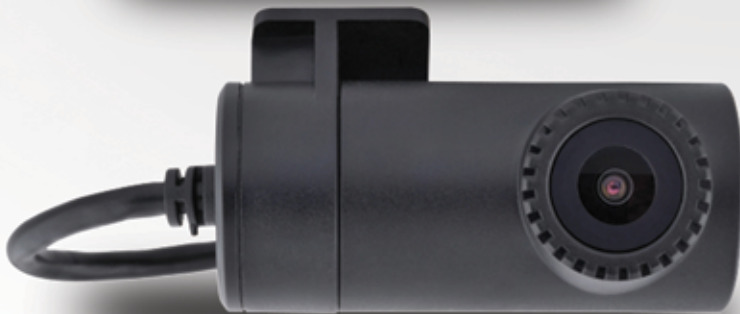

Allows viewing both cameras at the same time. The free Drive HD Player allows for simultaneous playback of front & rear video files.

### Driver Alert System

Lane Departure Warning and Forward Collision Warning\* provide visual and audible warnings when the vehicle drifts over a lane line or rapidly approaches an obstacle.

### Ultra Wide Viewing Angle

Ultra wide viewing angle films the entire road and your peripherals (Front: 160°, Rear: 130°).

**drive HD™**  
Record your ride

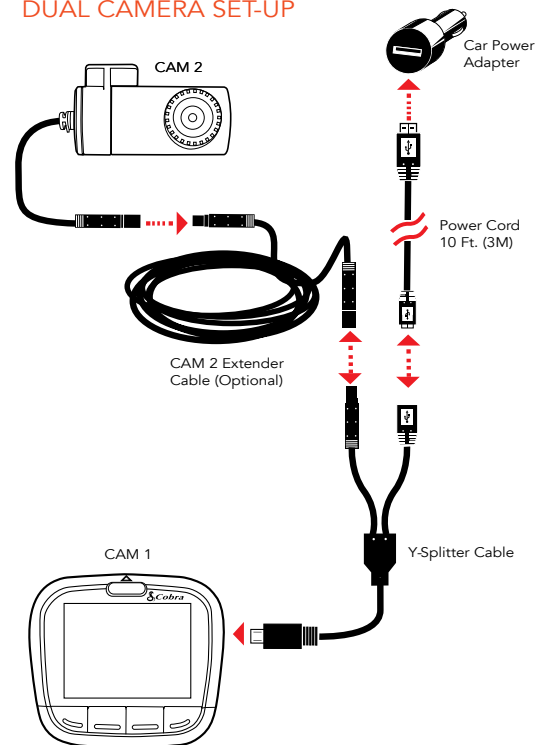

# CDR 895 D

## Camera Specifications:

Viewing Angle	160 degrees
Sensor	4 MP CMOS
Video resolution (front)	1080P 1920x1080 30 fps
	720P 1280x720 60 fps
	720P 1280x720 30 fps
Video resolution (rear)	720P 1280x720 30 fps
Video Format	.mov
Snapshot Format	JPEG
Continuous Loop Recording	Supported
Built-In G-Sensor	3 axis
Date and Time Stamp	Supported
Media Supported	micro SD Card - 16GB Included (64GB Max)
Languages	English, Dutch, French, German, Portuguese, Russian, Spanish, Chinese
Sound Recording	Synchronous video and sound record
USB Interface	USB 2.0
USB Mass Storage	Supported
Display Screen	2.0" LCD
Battery	Rechargeable battery with >30 minute recording time

## DUAL CAMERA SET-UP

## Additional Features

## Benefits

<b>Dual Camera System</b>	Simultaneously captures the road ahead and behind in HD video (Front: 1080P FHD, Rear: 720P HD).
<b>Flexible Configuration</b>	Allows mounting the rear camera on the front windshield facing in or use the 20 ft. extender cable to mount the rear cam on the rear windshield facing out to record the road behind you.
<b>Split Screen Viewing</b>	Allows viewing both cameras at the same time. The free Drive HD Player allows for simultaneous playback of front & rear video files.
<b>Parking Mode</b>	Parking Mode provides security while your vehicle is parked. If the dash cam doesn't sense any motion for a set time the screen will turn off and recording will stop. If motion is detected or the G-Sensor is triggered, the camera will automatically wake up and start recording again.
<b>SnapShot</b>	Snap a still photo at any time during a video with the all new SnapShot feature.
<b>Lane Departure Warning System (LDWS)</b>	Analyzes the road ahead for lane markings. As the vehicle drifts towards a lane marking and alert will be triggered.
<b>Forward Collision Warning System* (FCWS)</b>	Identifies slow moving or stationary objects in the road ahead and alerts if the vehicle is approaching them rapidly.
<b>Action Cam Mode</b>	Improved battery life frees your dash cam from the confines of your windshield. Switch to action cam mode to disable the G-Sensor and Loop Recording.
<b>Quick Release Mount</b>	Sliding mount allows for quick setup or teardown on any mount that uses a standard tripod mount screw.

## Set Up Information

<b>Unit Dimension</b>	2.28" H x 2.56" W x 1.24" D (58mm x 65mm x 31.6mm)	<b>Giftbox Weight</b>	1.08 lbs.
